PLATEPASS
AUTOMATED TOLL PAYMENT

What is PlatePass?

It's an electronic means for paying tolls.
No sign-up required — you choose on the road.

If you use PlatePass to pay tolls, you will be billed for all tolls incurred at the cash or highest posted rate plus a **\$4.95** convenience fee for each day you use PlatePass to pay a toll.

You can avoid PlatePass-related fees by not using toll roads, by paying cash at toll booths (note that some toll roads and bridges don't accept cash payment), or by using your own compatible electronic toll device where allowed (check with the relevant toll authority). Also, in some cases, you can pay a toll authority online (but check first with the relevant toll authority).

Visit platepass.com or
call 877-411-4300 for more information.
